## Wendy's News

On Easter Saturday Wendy had a severe stroke leaving her unable to use the left side of her body. No doubt you can imagine the shock and trauma this caused in our lives but we now look back on those few days with amazement at how the Christian fellowship to which we have the great joy and privilege to belong responded.

Within a day or two Yvonne had started the 'Meal Train' which was new to us and now we are enjoying the benefit of the outpouring of love as you take away the worry from both me and Wendy of feeding me until things settle down.

It has been simply amazing and so beneficial especially in the early days. Your generosity has enabled me to freeze lots of food when the supply was too generous so I have asked Yvonne not to book anything for May during which time I will be opening the freezer and better able to organize things for myself thereafter.

This was not the only God-send as He also led you to pray earnestly for Wendy and God is blessing her with recovery on a gradual but sure path. From no use at all she is now moving her left arm and leg with increasing sureness, her speech is back to normal, she can now read without confusion and is discovering great joy in the psalms at the moment. She is also now entertaining the ward with her smile and her usual repartee!

Please accept our inexpressible thanks and God bless you all.
