

**Newsletter:**

**Sunday 2<sup>nd</sup> May 2021**

A special welcome if you are worshipping with us for the first time

## Sunday Message

### Jesus and Work

*...Listen online to the message from*

### The Rev Duncan Tuck

**Scripture 2 Corinthians 5: 16-21**

What is our work as Christians and what happens when our normal work or activity, impacts our faith?

Today we look at what it is to follow Jesus, and our response when that may cause conflict.

**NB: No Zoom Service this week.**

### Kiddie Link

No Sunday School this week, so you may enjoy this video **Superbook 'The Prodigal Son'**

<https://youtu.be/ZpRh8xedMPE>

Song and dance video 'Every move I Make'

<https://youtu.be/MPvnZILn6EY>

### MEAL TRAIN

**A huge thank you to all the Meal Train Chefs. Your kindness has been greatly appreciated by Derek and Wendy. The Meal Train terminated on Friday 30th April.**

MAF is a family of organizations in 34 different countries around the world with a fleet of 132 aeroplanes. Our vision is to see 'isolated people physically and spiritually transformed in Christ's name. Collectively, we serve some 1,500 non-profit, church, and humanitarian organizations.

**This year MAF celebrates its 75<sup>th</sup> Anniversary on July 3<sup>rd</sup>. More information next month.**

A brief update from some of the MAF bases around the world:

#### **Mozambique**

Dozens of civilians have been killed and at least 11,000 displaced, following the invasion of Palma on the northeast coast of Mozambique (BBC). Since 1 April, local MAF partner – Ambassador Aviation – has rescued over 300 refugees in a joint emergency evacuation effort.

#### **MAF flies AstraZeneca vaccine to remotest Lesotho**

The only way for the coronavirus vaccine to reach the mountain people of Kuebunyane is by a MAF aircraft. MAF pilot, Grant Strugnell, was privileged to transport the region's first batch of life-saving vaccines, so Kuebunyane's frontline health workers could get inoculated.

#### **Flying the coronavirus vaccine to the ends of the earth**

As the UN-backed COVAX inoculation programme slowly rolls out across developing countries, MAF has played its part in transporting the vaccine and medical staff to the remotest places on earth.

#### **MAF flies orthopaedic doctors to treat deformities in remotest Kenya**

This month, MAF joined forces with charity, CURE International to facilitate mobile medical clinics on Lamu Island and in Bura Town – two isolated communities in southern Kenya. Over 80 patients were treated for numerous conditions including cerebral palsy, club foot and cleft palate. **Please pray that the MAF supply corridors remain open and protected.**

**Need a Friend: That's us at URC. Whatever you need, whether its practical help, prayer or just a chat. Contact us, on one of the numbrs below. Or join Anna Clements and friends for Zoom Coffee on Wednesdays.**
