**When the coronavirus pandemic struck Rwanda, it pushed many people further into poverty. Take Laetitia's community...**

Laetitia is a farmer in Rwanda, where life has been tough. She struggled to earn an income and provide for her children, as did many in her community. But then Laetitia heard about a self-help group – set up by Tearfund's local church partner. These groups bring together people from across the community to read the Bible, support each other and save money for the future.

But then the pandemic hit and Laetitia's business – and those of others in her community – came to a standstill.

Self-help groups like Laetitia's mean that when times are difficult, they have the support they need. This pandemic has taught us that we need each other – and that we all need a safety net.

"The advantage we had over others as group members [was] at least we managed to share what we had in our treasury to feed our families during this terrible period", shares Laetitia.

*Thank you for helping us to support communities like Laetitia's*

**We are NOT defeated, we have PRAYER  
and prayer can change ANYTHING!**

**Petition God to intervene and restore peace!**

Pope Francis has posted an anti-war message on his Twitter feed in Ukrainian, Russian and English, saying that "every war leaves our world worse than it was before".

"War is a failure of politics and humanity," he added, calling it a "shameful capitulation. a stinging defeat before the forces of evil".
